

REYNA VALENTINA ORTIZ PORRAS

ABOUT ME

I consider myself a responsible, resilient and with initiative person. A few of my best qualities are that I'm self-demanding, persistent and discipline. My goal once I finish my bachelor's degree is to focus on the area of Salesforce where I could apply methodologies of software engineer.

ACADEMIC INFORMATION

Resently I'm study third semester in software engineer in the Facultad de Matemáticas in the Universidad Autónoma de Yucatán. In my first year, I learned to solve everyday problems through computational solutions, using knowledge of vectors, arrays, nodes and linked lists in C language. I developed with my team work a project based on web scrapping, as well as the graphical interface in Python language.
